PROFESSIONAL SUMMARY

I am a HFI - Certified Usability Architect (CUA™) with 7.5+ years of multidisciplinary design experience across UI/UX, Graphic Design, and Interior Design. Specialized in User Research, Task Analysis, Usability Testing, Accessibility (WCAG/GIGW), and end-to-end product design. Experienced in designing scalable digital platforms for government and enterprise systems, translating complex requirements into intuitive, user-centered solutions aligned with business goals.

WORK EXPERIENCE

Vinsys IT Services, Pune, India — May 2026 - Present
UI/UX Designer

- Designing an **enterprise HRMS product for a Dubai-based FinTech client across an 8-sprints / 90-day delivery.**
- Translated BRD/FRD requirements into **high-fidelity product experiences covering RBAC, multi-role workflows, approvals, configurations, and complex data entry.**
- Designed scalable light/dark UI, components, variants, empty/error/loading/validation states, search, filters, sorting, and bulk actions.
- Collaborated with **BA, Frontend-Backend Developers, QA, Scrum Master, and Stakeholder - presenting prototypes, explaining design rationale, and incorporating feedback.**
- Used ChatGPT, Claude, Figma AI, and Base44 to explore design concepts, validate flows, and identify edge cases; also contributed to other projects like Talent Management System and First Year Junior College (FYJC) government UX audit initiatives.

Stark Digital Media Services Pvt. Ltd, Pune, India — Feb 2024 - Mar 2026
Graphic Designer (UI/UX)

- Led UX design for 15+ government and enterprise platforms including **Pune Municipal Corporation(PMC) website revamp, Directorate of Municipal Administration(DMA) website revamp, Pune Metropolitan Region Development Authority (PMRDA) landing page, Pimpri Chinchwad Municipal Corporation(PCMC) Encroachment Mobile App, Right to Service(RTS) web portal and, Dashboards, and POC initiatives.**
- Led User Research, Information Architecture improvements, and Usability evaluations ensuring WCAG and GIGW compliance.
- Designed wireframes, high-fidelity UI, and scalable design systems in Figma, collaborating cross-functionally to deliver user-centered solutions.
- Leveraged AI-assisted tools (ChatGPT, Claude, Gamma, Base44) to enhance research depth, design efficiency, and overall product impact.
- **Designed AI-Integrated products, incorporating features such as Predictive Analysis, OCR-based data extraction, and data-driven design decision-making.**
- **Served as Acting Team Lead for 5 months, driving branding and UI/UX projects and ensuring design quality and consistency.**

Subspace (Grow90), Bengaluru, India (Remote) — Oct 2023 - Dec 2023
UX/UI Designer - Internship

- Designed mobile and web interfaces for a Subscription Management Platform using an existing design system.
- Revamped website layout with structured information architecture and high-fidelity mockups.
- Created app store visuals and marketing assets; improved usability and visual consistency across product screens.

Semporro, Pune, India — Jun 2022 - Jul 2023
Senior Graphic Designer

- **Delivered 200+ digital and print asset**s including presentations, templates, brand identities, and marketing materials for clients such as **Go-Live Faster, Kyyba Inc, Wipro, FIS Global, PetFix, Save Grain Bags, and Reeth.**
- Strengthened visual identity systems across **IT, FinTech, Agriculture, Restaurant, and Event Management sectors.**
- Managed multiple concurrent projects under tight deadlines, delegated tasks, and supervised quality assurance.

Semporro, Pune, India — Aug 2020 - Jun 2022
Junior Graphic Designer

- Designed print and brand assets including ads, brochures, packaging, and stationery; contributed to brand refresh initiatives.
- **Developed 50+ creative concepts** across client projects.

Livspace, Pune, India — Oct 2019 - Jun 2020
Junior Interior Designer

- **Managed 150+ client projects end-to-end,** from requirement gathering and budgeting to site evaluation and execution planning.
- Provided material consultation and negotiated project terms to ensure timely, budget-aligned delivery.

Eppitome Groop, Pune, India — Dec 2018 - Sep 2019
Interior Designer & Business Development Manager

- **Led 40+ client projects end-to-end including requirement gathering, site assessment, budgeting, and design presentations.**
- Developed mood boards and managed social media presence to strengthen brand positioning and client engagement.
